

3 Courses

Introduction to Enterprise Computing

Getting Started on Mainframe with z/OS Commands and Panels

Basic System Programming on IBM Z

07/01/2020

Jason Robson

has successfully completed the online, non-credit Professional Certificate

IBM z/OS Mainframe Practitioner

In this Professional Certificate, learners developed and honed essential skills for the architecture, configuration, and administration of IBM Z Systems. They have gained and demonstrated skills in the areas of mainframe subsystems, hardware, software, and best practices.

IBM Z Ecosystem
Architect

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
